

Trilogy Networx®: New wireless networking locks

Alarm Lock Networx Training Class

Learn how to install Alarm Lock Access Control. No low voltage license needed. This class is hands on and will cover all aspects of DL Windows Software programming, including setting up a system with users, time zones, schedules, running an audit trail for the Networx products.

We will send/receive programming using our Laptops to Networx products. We will demonstrate the Networx - Global Emergency Commands to issue a "Lockdown" all locks within the system from the PC and/or from any lock within the system as if there was an emergency situation. The Global Emergency Commands can also be used to "Unlock" all locks within the system from the PC or any lock within the system.

NOTES: class size is limited to 20 attendees. Mandatory that attendees bring their laptops to class for software installation - Laptops must be updated with the current MS Windows OS.

For more information, or to register contact Vicki Griffith at: Vicki.Griffith@ClarkSecurity.com or contact your local CLARK sales representative at 1-844-52-CLARK.
